

Your Preferred Virology Contract Research Organization

Best in class preclinical and clinical test services for vaccines, antivirals and diagnostics development

A GLOBAL R&D OUTSOURCING PARTNER

Viroclinics operates at a global level, being the preferred virology testing laboratory for several of the top-10 Biopharmaceutical companies. With a specialty in respiratory viruses, we support the development of vaccines, antibodies and antiviral compounds targeting viral infectious diseases. A network of 38 processing laboratories in North America, Central America, Latin America, Europe, Africa, Middle East and Asia-Pacific, allows for efficient coordination of large scale research projects and studies.

OUR SERVICE PORTFOLIO

A wide range of **CLINICAL DIAGNOSTIC SERVICES** is offered including: virology assays, e.g. quantitative culture and plaque assays, serology assays, e.g. haemagglutination inhibition, neutralizing antibodies, CMI, molecular assays, e.g. real-time qPCR, sequence analysis and Next Gen sequencing.

In addition, Viroclinics Xplore offers a wide range of **EARLY STAGE** and **PRECLINICAL SERVICES**. Several animal models are available, including ferrets, mice, rabbits, guinea pigs, cotton rats, NH primates and others.

Furthermore, our dedicated **RESEARCH & DEVELOPMENT** specialists offer novel, custom-designed assays and expert advice on assay development.

CLINICAL TRIAL OPERATIONS SERVICES consist of preparing and designing virology sampling kits, courier transport coordination, sample tracking and tracing (guaranteeing temperature controlled supply chain and online-sample timelines), management and training of sample processing labs.

4500 m² Laboratory Facilities

Custom Assays

BSL2 & BSL3 Facilities

Virology targets include Influenza, RSV and MERS

Our Track Record
